

PRESS RELEASE

FairWind Awarded Vesterhav Offshore Wind Farm Project

Vejle, May 16, 2023

FairWind has been awarded the turnkey pre-assembly contract for the offshore wind farms Vesterhav Nord and Syd at the Port of Esbjerg, Denmark. Here, FairWind will be responsible for the pre-assembly erection of 41 Siemens Gamesa's SG 8.0-167 DD turbines. Each direct drive (DD) turbine will have a power generating capacity of 8.4MW. FairWind will start work in May 2023 and the wind farm is expected to be fully operational by the end of 2023.

The two wind farms will have a combined capacity of 344MW. The project is expected to generate 1.57TWh of green power a year, which will be sufficient to meet the energy needs of 380,000 households in Denmark.

About FairWind

FairWind A/S is a leading global provider of one-stop solutions for the installation and service of onshore and offshore wind turbines throughout the world. FairWind has worked in more than 40 countries and cooperates with over 1,500 technicians to manage customers' projects globally.
